

Track Record

Coastal & Civil

The coastal & civil market is a competitive market that is changing rapidly. Our aim is to support you with innovative equipment that provides increased efficiency and safety on your installation projects. At the early stage of your projects, we are working closely together to maximise installation windows, mitigate risk and guarantee a positive result.

IQIP has an extensive portfolio of pile handling, installation equipment and noise mitigation solutions to meet your installation challenges head on.

Track records of 2012 and older are available on request.

Coastal & Civil

	Project	Hydrohammer	Contractor	Application	Country
