

TRACK RECORD

LEVELLING TOOL

Levelling Tools are used to level jackets, templates and offshore structures. With our extensive track record and proven technology we offer a rental fleet of Levelling Tools starting from 200t to 3,000t, also available for purchase.

The range for subsea Levelling Tools are between 1,600t to

3,000t and supports pile ranges of 72" to 102". For above water use 200t, 800t and 1,600t units are available that is adjustable for all pile diameters.

Jacket Pile Grippers and Levelling Tools can be combined easily for a complete workable solution.
